

JAZZTINE IVANNE “VANIE” DURANA

Frontend Developer | MERN Stack Developer – Entry Level | <https://vanie-portfolio.vercel.app>

(+63) 9764842947 | jazztineicd302@gmail.com | [linkedin.com/in/codevanie](https://www.linkedin.com/in/codevanie) | github.com/CodeVanie

MERN Stack Developer with practical experience in building full-stack applications using MongoDB, Express.js, React.js, and Node.js. Adept at debugging, API integration, and working across teams to deliver user-centered solutions. Demonstrates strong adaptability, leadership potential, and a commitment to developing full-stack expertise.

WORK EXPERIENCE

Associate Technical Support Engineer

Oracle NetSuite (Philippines) Corporation - Makati, Philippines

Jan 2024 – Present | Full-Time

Delivered SuiteScript customizations and SQL-driven diagnostics to strengthen application functionality and system performance. Led knowledge-sharing efforts through training materials and hands-on mentorship, contributing to stronger team capability and overall service quality. Earned Top Employee (April 2024) and led 7 junior engineers as Senior Buddy.

Head of Product and Technology

GIODATA Solutions — Philippines

Oct 2025 – Present | Part-Time

Led product and technology initiatives for a growing startup, developed the frontend of JuanderGO's customer and merchant website, and guiding technical decision-making across the team. Collaborated closely with founders and developers to shape product direction, improve user experience, and establish efficient development practices. <https://juandergo.com>

Frontend Developer – Project Contributor

NASA Space Apps Challenge (Hackathon)

Sep 2025 – Oct 2025 | Project Based

Contributed as the frontend developer for a college team in the NASA Space Apps Challenge, building a web application using React. Guided a team member in learning React and applying it to the project, supporting development and knowledge sharing in a fast-paced hackathon environment. <https://redshipped-engine.vercel.app/>

Web Developer Intern

DevOps Technologies - Dasmariñas, Cavite

Feb 2023 – May 2023 | Internship

Developed and maintained features for a POS system and booking website using ASP.NET Core (MVC), C#, JavaScript, and SQL. Collaborated in a Scrum team to integrate front-end and back-end components, gaining hands-on experience in full-stack workflows, database integration, and version control while strengthening coding and teamwork skills.

PROJECTS

Portfolio Website (Aug – Sep 2025)

Built an interactive, mobile-first portfolio website showcasing front-end projects with responsive layouts across all devices. Enhanced user experience with animations, hover effects, custom UI elements, and clean, maintainable code following modern front-end development best practices. <https://vanie-portfolio.vercel.app/>

TODO-To-Do (Aug – Sep 2025)

A smart task management app designed to organize both one-time and recurring tasks with features like creating, updating, deleting, sorting, and filtering. Includes notifications, task completion tracking, favorites, an in-app guide, and smooth routing to keep every task in its place. <https://vanie-todo-to-do.vercel.app/>

QuizMaTa (Work in progress)

A quiz based web application for learners and educators to create and take quizzes with customizable time limits, passing scores, and various question types. Features include user authentication, personalized profiles, and Classes, virtual rooms for group focused quizzes, providing a secure, interactive, and engaging experience. <https://quizmata.onrender.com>

EDUCATION

Bachelor of Science Major in Computer Science | Technological Institute of the Philippines – Manila | 2023
